INDEPENDENT ILLUSTRATORS SLOVENIA: the First Biennale
This autumn - mid-October to mid-December - Ljubljana hosts its first Independent Illustrators Biennale. The event initiator, Trolarika aims to re-define standard forms by applying a fresh and innovative approach to understanding contemporary illustration and its contexts. The Biennale hosts more than 30 selected young artists and presents more than 10 exhibitions, projects, presentations, and live actions dispersed throughout galleries and the city's public spaces.
The first major event, at the opening of the Biennale 25.10, will see the project 'Drive' (The Tree) by Ziga Ajaz and David Kranjan in club K4. Earlier the same evening Bikofe hosts Mira Zabriskar's exhibition 'The Bears are Coming' (25.10 - 26.11. 2007). Here's a selection of exhibited authors and variations on their exhibited work.
